"The Christian," played by a company made up almost entirely of newcomers, was the offering at the Century last night. Inthe offering at the Century and Agust In-terest centered in the acting of Clara Blen-dick and Stanton Elliot, earnest young en-tertainers, who would tread their way to standem. Miss Blendick was Glory Quayle. Mr. Elliot impersonated John Storm.

Mr. Elliot impersonated John Storm.

Miss Blendick seemed at her best in the
lighter moments of the piece-during the
prologue and at the music hall. Hers is a
cheerful temperament, not frivolous,
but good-natured; a temperament admirably suited to those difficult parts created
by Annie Russell and others of her pieasant kind.

Miss Blendick did rather well, too, in the chanel scene, where she was asked to give up Storm in order that he might continue

his church career.

Mr. Elliot got about all there was out of
the role of John Storm. His every speech
was heard in the remotest part of the
theater. His scenes with Miss Blendick were at all times satisfying, and contrasted with the ensemble situations, which in-troduced a cast that was a triffe less than

ordinary, as a whole.

Louis Nethersole is in St. Louis in advance of Miss Julia Mariowe, who is to vance of aims Julia Mariowe, who is to appear at the Olympic Theater April 27, when she will be seen here for the first time in "The Cavaller." This play is a stage version of George W. Cable's South-ern romance. The dramatization has been made by Paul Kester, who furnished Miss Marlowe with "When Knighthood Was in

William Faversham comes to the Olympic to-night in "Imprudence," H. V. Esmond's new play. With Mr. Faversham will appear Fay Davis, Hilda Spong and Jeffreys Lewis.

Harry Beresford, a comedian who has not visited St. Louis in several seasons, came to the Grand in "The Wrong Mr. Wright." The farce was originally exploited by Ro-land Reed and Isadore Rush. Beresford ap-peared as Saymour Sites or "Mr. Wright." Reed's part. Beresford has his limitations but in this role he amused through three stirring acts. Anne Leonard was seen as Henrietta Olive, the detective. Emma Dunn played Tilly Bird, Julia Bond's maid.

The farce was carefully staged. The spenic effects lend brightness to the summery settings of Fortress Monroe and Old Point Comfort.

THE NORMAL BILL

REPUBLIC SPECIAL

Jefferson City, Mo., April 19.—Governor Dockery to-day vetoed the bill to establish a southwest normal school in Missouri. The school was asked for by the citizens of South and Southwest Missouri, and the bill

rassed the Legislature. Had the bill become a law the school likely would have been located at Webb City in Jasper County, as that city was prepared to offer a building for the school. veto message, Governor Docker)

In the vector and the second for disapproving the bill as follows:

"Missouri has now three strong, well-equipped, progressive normal schools, located at Kirksville. Warrenburg and Cape Girardeau. This bill authorizes the appointment of commissioners to locate another normal school, and directs the commission to receive 'offers,' and select from among them the one most favorable for the nurpose intended." NO APPROPRIATION.

NO APPROPRIATION.

"No appropriation whatever is made for the construction of buildings and the maintenance and support of the institution, but the bill authorizes the creation of liabilities to pay the expenses of the commission, the Board of Regents, and the employment of teachers and others necessary to conduct the school.

"It seems that the bill limits the commissioners in the selection of a site to those which may be 'offered.' This, in my opinion, is a mistaken policy. There should be no restraint upon the commissioners as to location, but the school should be established at the most available point in the proposed normal school district, where it can most easily and inexpensively acommodate the greatest number of the patrons of the school. The commission should be restricted to 'offers' made by any cities or counties, but the location should be made with the single purpose of promoting the growing educational interests of our State. SHOULD LOCATE SCHOOL.

"I will not discuss the necessity for the establishment of another normal school, although it has been a subject of serious disputation among the educators of the State. I do insist, however, as herectore stated, that if the State of Missouri is to establish another normal school it should make its own selection of a location, without being limited to "offers" which may be made.

"If the State is to assume the responsibil-

out being limited to oners' which may be made.

"If the State is to assume the responsibility for this new enterprise, it should withhold its legislation until such time as the condition of the treasury will warrant a sufficient appropriation for the construction of buildings and the equipment of the institution, so that it may be able to fully accomplish its high mission in the development of the educational interests of this great commonwealth."

pear in the trial court with his attorney, and ample proofs, he says, to establish his position.

Barrington stated he was prepared to prove faise many of the things set forth in his wife's petition for divorce. He says he was never married before, and he did not "dupe" his wife into marriage, and that he had done and would do for her all he could. He intimated that he had one grand surprise to introduce, which would prevent his wife's getting her divorce.

"I will contest the suit," said Barrington, "not so much because I love the woman, as to justify myself in the eyes of the public. The charges which are beng made are absolutely untrue, and I am prepared to prove them so. I never claimed to be a Lord, not to own Melrose Castle, England. The charge that I am an imposter will be proved untrue, at the trial.

WILL FILE NO CROSS-BILL.

"No I will not file a cross-bill. I do not want a divorce and do not believe my wife can secure one. There is absolutely no grounds for granting it. I did not deceive my wife into marrying me. After the marriage I treated her with every consideration and kindness. I am now working and am willing to do all in my power for her. "It is my opinion that Mrs. Barrington is not taking her present stand through her own inclination, but because of the interference of those surrounding her. If left alone I believe her conduct toward ms would be quite different. I have always had the highest respect and regard for her, and throughout my troubles have not blamed her."

When seen Barrington was attanding to business in the buffet which he is managing at Broadway and Chestnut streets. He was fashlonably dressed and appears to have gotten rid of the effects of his term in the Workhouse. He said he will make his home in St. Louis and leave, nothing undone to right himself in the eyes of the public.

### CROW ALLOWS NO WHITEWASH IN PROSECUTION OF BRIBERY,

Strongest Political Influences Are Cast Aside by Attorney General When He Undertakes to Bring to Punishment Those Guilty of Corruption in Office-Past Record Gives Lobbyists No Hope of Immunity From the Persistent and Aggressive Man Who Holds Their Fate in His Hands,

"The hardest working official in the State | a uniform rate of 2 per cent per annum to of Missouri" will have charge of the prose-cution of legislative boodlers. It means much to those men against whom indictments have been found by the Cole County

Grand Jury. When Attorney General Crow was called into the investigation of legislative corruption by the Cole County Grand Jury results looked doubtful. Two weeks of work have shown that for the first time in the history son to fear for their freedom.

Said one of the chief lobbyists of the State only a week ago: "No one knows hetter than we of the third house that this Grand Jury will make no whitewash. Every possible political pressure has been brought to bear on Attorney General Crow. He is immovable. Friends and enemies have gone to him practically on their knees, but he has told each or them that so far his record is clean and he proposes to finish it in the same manner. To show how much in earnest he is, it is only necessary to state that he has given orders that long-distance telephone calls from certain people are not to be connected with his office. Crow will prosecute this thing to the bitter end."

CAPITAL FILLED WITH LAWYERS WHO PLEAD FOR BOODLERS. This candid statement of a lobbyist well known over Missouri explains in part why the capital has been filled with attorneys during the past week-attorneys who did not plead the Supreme Court as an excuse. It also explains in part why certain men connected with legislation have not dared to go before the Cole County Grand Jury.

That the lobbyist was correct in his estimate a week ago is evident from the fact that six indictments for legislative boodling have already been returned. More are to follow as soon as the Attorney General can prepare the papers. The investigation is to proceed. The boodlers are in hard lines,

In his first term he wen an ouster suit against the insurance companies of the state which were maintaining underwriting boards. As a result, these companies were forced to pay \$37,000 into the State Treasury. Another case, hardly of less importance, was the proceeding against trust companies, compelling them to pay interest on deposits, in accordance with the law. Since the successful termination of that suit, the trust companies have paid

On this record Mr. Crow secured a uranimous renomination. Last summer, when the Heef Trust was charging exorbitant prices for meat, the Attorney General brought ousier proceedings. Many lawyers hughed at the possibility of securing a favorable decision from the Supreme Court. Only a month ago the big packing companies involved were ordered to pay fines of \$5,000 each and costs or leave the State. Last week they paid \$27,000 into the Treasury.

There is now pending a suit against the railroads of Kansas City prohibiting them from imposing arbitrary switch charges. It will come up on a demurrer three weeks hence. If the case is won \$600,000 will be saved to the shippers of the State. suit against the Illinois Drafnage District s still pending in the Federal courts and has assumed a seriousness for Chicago which was not anticipated.

Another case which has aroused much interest is that against the American Tobacco Company. Much of the history of this case has not been told. It is said that this is the only case which the Attorney General ever brought without having the records at hand. A close friend promised to bring the evidence as soon as the case was filed. The friend failed him and the suit now hinges on an application for an order compelling the papers to be filed for testimony.

Mr. Crow is proud of his record. Now that he is in the boodle cases ne has told his friends that he proposes to leave no room for criticism. His assistant, Sam B. Jeffries, has worked on the papers, while the Attorney General has been the interregator before the Grand Jury, The most perfect sympathy exists between the two

WHEN HIS POLITICAL PRIENDS WERE DIVIDED BY FEUD.

I do not nominate Phelps as an enemy of Stone, but as a friend of mine. I support one as well as

Crow's industry is the marvel of his friends. It is rare indeed when the part of the Supreme Court building occupied by him is not lighted until nearly midnight.
An intruder will invariably find the Attorney General and his assistant, Mr. Jeffries,

The Constitution of Missouri provides that all State officers must live in Jefferson City. Mr. Crow is very ambitious for his children-so much so that he maintains two homes, one in Jefferson City and the other in St. Louis at No. 459 Magnolia avenue. The three wounded men, who are said to have been the leaders of the attack on the officer, were arrested. None of them was seriously injured.

The disturbance occurred near the Greek Catholic Church in Johnson street. During Easter celebration some one threw a light-ed firecracker among the pedestrians in the street.

Polleeman Cohen immediately arrested the offender. The crowd attacked the officer, knocking him down with a brick.

Cohen sprang to his feet and fired a shot into the crowd, litting Nick Rizzitto in the left shoulder.

This act infuriated the mob, which again rushed at the officer and probably would have killed him had not Oppenheimer sprang to his arsistance.

He held the crowd at bay for a moment until Cohen could recover from the attack. Surrounded by the maddened crowd they fired several shots, wounding two of the disturbers James Chipanvitz and John Loisets by name.

Cohen and his companion, after being severely bruised and having their clothing almost torn from their bodies, managed to excape to a saloon, where they held the crowd back until the arrival of police aid, which dispersed the mode.
